HIV service packages for sex workers in South Africa

(adapted from The South African National Sex Worker HIV Plan, 2016)

Six core packages of interventions:³

1. **Peer outreach/education:** Distribute male and female condoms and lubricants; social and behaviour change communication, including information and negotiations skills; facilitate access to health services; promote rights and justice literacy.
2. **Health care:** Prevention (condoms, Pre-exposure prophylaxis, and medical male circumcision for male partners and male sex workers); testing and linkage to treatment for tuberculosis, HIV and viral hepatitis; broader sexual and reproductive health and rights services.
3. **Psychosocial service:** Addressing stigma and discrimination and violence against sex workers; child protection and counselling support; alcohol and drug dependency counselling and referral.
4. **Human rights:** Legal literacy and services; work with police services to eliminate practice of using possession of condoms, lubricants, antiretroviral therapy, or other legal commodities as evidence of sex work and grounds for confiscation or arrest.
5. **Social capital building:** Collective identity mobilization and community empowerment.
6. **Economic empowerment:** Skills Building, career planning and educational improvement.

HIV service packages for sex workers in South Africa

(adapted from The South African National Sex Worker HIV Plan, 2016)

Three tiers of service delivery:

1. **Peer outreach:** the backbone of the response.
2. **Dedicated clinics** in areas of high-density sex worker numbers (more than 3000 sex workers per district).
3. **Mobile services** in low density (fewer than 3000 sex workers per district), delivered at hotspots with support from outreach teams.

Enabling environment:

1. All stakeholders help to **improve sex workers' well-being**.
2. **Supportive policies**.
3. Efforts towards **legal reform** in order to reduce stigma, discrimination and violence against sex workers.

Summary and recommendations

- **Definition of service packages and platform essential element of 10-point action plan**
- **Global guidance and good practice examples exist – on coalition website.**
- **All countries encouraged to define standard packages and platforms – adapt from existing work.**
