HIV testing services integrated within sexual and reproductive health	Yes
Provider-initiated condom promotion integrated into sexual and reproductive health	Yes
services	

HIV programme coverage and outcomes

Data sources: UNAIDS 2023 epidemiological estimates; Global AIDS Monitoring 2023; and ICF – the DHS Program STATcompile

Data sources for key population program coverage: Global Aids Monitoring 2023, Global Fund and PEPFAR reports obtained in 2023. Some of the data are triangulated and thus not nationally representive.

Note: The 2023 UNAIDS epidemiological estimates represent the year 2022. Other data points may refer to various years when the surveys were conducted.

ter. 2020 and 2025 targets for reducting new HIV infections represent the country's required contribution to alchal targets, at 75% reduction by 2020 and 82.5% reduction by 2025 against 2010 as a baseline. These reductions are required to achieve a 90% reduction by 2020 and 82.5% reduction by 2025 against 2010 as a baseline. These reductions are
