NAMIBIA – State of HIV Prevention and HIV Prevention Commitments for ICPD25

GPC Ministerial Meeting, 11 November 2019, Nairobi

Ms Masabane,
Deputy Executive Director,
Ministry of Health and Social Services
NAMIBIA’S CONTEXT

Since the beginning of the GPC ...

Achievements:
- Combination prevention strategy in place
- Nationalised, standardised PrEP SOP in place
- 94% Testing coverage

Challenges:
- Low coverage of VMMC services
- AGYW services are not standardised
- Data gaps on AGYW and KP, especially subnational level and age disaggregations
Recommitting to HIV prevention by 2020 at ICPD25

1) Namibia commits to have a social contracting mechanism in place by 2020

2) Namibia commits to domesticate the SADC KP strategy, including creation of a KP workplan and services for transgender people

3) Namibia commits to increase percentage of priority locations with AGYW programs from 12% to 50%
Thank you!
