

Global Prevention Coalition

# **NIGERIA: Taking stock, planning the future.**

GPC Ministerial Meeting, 18 November 2020

**DR. E. OSAGIE EHANIRE MD, FWACS**  
**HONOURABLE MINISTER OF HEALTH, NIGERIA**

# Achievements

---

---

## ❑ New HIV infections declined 10%

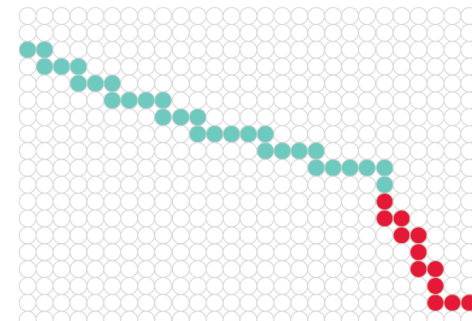

- 2010: 90,000 2019 to 81,000

## ❑ HIV prevention programmes scaled up

- Increased coverage of Pre-Exposure Prophylaxis (PrEP) for key populations  
2019: 118 2020: 11,413

## ❑ Programme monitoring strengthened

- Revised data collection tools
- Reports from sub-national prevention programmes
- Data link to the National Data Repository (NDR)

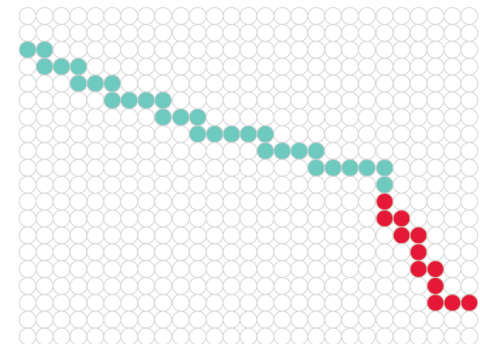

# Challenges

---

---

- ❑ COVID-19 related disruptions affected implementation of HIV prevention programmes.
- ❑ Law enforcement and access to services for Key Populations (KPs), especially for People who Inject Drugs (PWID)
- ❑ Sub-national leadership, ownership and capacity to implement and monitor prevention programs

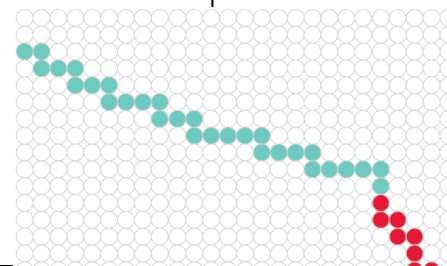

# Commitments

**Reduce new infections by 75% by 2025:**

- ❑ **Drivers of the epidemic at state and LGA levels.**
  - Adolescent Girls, Young women and their partners (AGYW), key populations
  - HIV prevention and Sexual and Reproductive Health programmes
  - PMTCT services to eliminate infections among infants and children
- ❑ **Strengthen non-health sector reporting**, track key performance indicators and finances
- ❑ **Increase domestic resources**, achieve UNAIDS call for a ‘Quarter of all HIV resources for prevention’

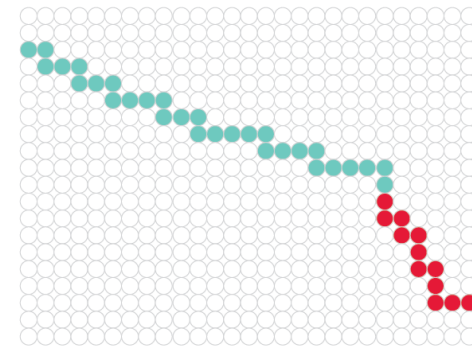

# Alterations needed in the context of the COVID-19 pandemic

---

---

- Integrate HIV prevention programs with COVID-19 community engagement, risk communication and community led monitoring programmes
- Build capacity of health workers
- Continue multi-month and alternative access for HIV prevention commodities
- Prioritize HIV prevention, COVID-19 resource mobilization approach for both diseases.

---

---

**Thank you!**
